# 1. Uvod

## 1.1 Korišćeni programski jezici

Korišćeni jezici za izradu sajta su *HTML*, *CSS(SASS)*, *XML*, *JavaScript* i *jQuery* biblioteka.

## 1.2 Opis funkcionalnosti

### Stranica index.html

- Dinamičko ispisivanje navigacije hedera (obične i navigacije za manje uređaje - hamburger)
- Dinamičko dodavanje klase, onom linku u navigaciji, na koji se klikne
- Dinamičko ispisivanje svih lista u foteru (navigacija, linkovi za kontakt (takodje tu se nalazi link za dokumentaciju), linkovi za društvene mreže)
- Sekcija *About us*, u kojoj se prelaskom miša preko slike dešava *FadeIn* efekat i menja se postojeća slika. Izlaskom miša, van slike, vraća se prvobitna slika sa efektom *FadeOut*. (korišćenje *jQuery* biblioteke)
- Dinamičko ispisivanje dela za statistiku kompanije (counteri) - prikazuje različite statistike avio-kompanije, tako što se odbrojava do određenog broja, korišćenjem tajmera (*setInterval*)
- Dinamičko ispisivanje dela za preporučene letove - postoji dropdown lista, gde se izborom države u listi, prikazuju svi letovi koji za destinaciju imaju gradove iz te države (po default-u se prikazuju svi letovi i ako je u listi izabrano *All*, *takodje se prikazuju svi letovi*)
- Dinamičko ispisivanje dela za recenziju korisnika (njihovih tekstova i ikonica) - Testimonials, čiji se sadržaj menja u odnosu na to koji je korisnik izabran, ispod, u ikonicama, odnosno prikazuje se recenzija onog korisnika, na koga se klikne.
- Modal koji se pojavljuje nakon 5.2 sekunde od učitavanja stranice (*index.html*), koji u sebi sadrži tajmer, koji odbrojava u satima, minutima i sekundama do nekog datuma. Izlazak iz modala se može izvršiti klikom na **X**, u gornjem desnom uglu ili klikom bilo gde van samog modala. Modal je takodje fiksiran i prati skrolovanje kroz celu stranicu.

- Scroll to top dugme - nalazi se u donjem desnom uglu i pojavljuje se ukoliko se skroluje od gornje ivice više od 400px sa efektom FadeIn, za 0.5 sekundi. Takodje ako se skrolovanjem vratimo gore, ispod 401 px, *Scroll to top* dugme nestaje, efektom FadeOut, za 0.5 sekundi. Njegova glavna uloga je da, kada se na njega klikne, vraća nas na početak stranice, korišćenjem metoda *animate* (scrollTop: 0), za 1 sekundu. (korišćenje jQuery biblioteke)

## Stranica contact.html

- Dinamički ispisana polja za unos teksta (username, email)
- Dinamički ispisani radio buttoni i check boxovi
- Prikaz forme za kontaktiranje od strane korisnika. Forma u sebi sadrži polja za unos *username, email, radio button* za biranje pola, *check boxovi* za biranje oblasti pitanja zbog koje korisnik želi da kontaktira kompaniju i *dropdown lista* za odabir agenta sa koga žele da kontaktiraju i razgovaraju sa njim.
- Kod polja za unos teksta (username, email), postoji event *"keyup"* i *"blur"*. Keyup se aktivira pri kliku nekog tastera na tastaturi (puštanju tastera), dok se blur aktivira kada se izađe iz fokusa tog polja. U oba eventa se proveravaju uneti podaci regularnim izrazima u funkciji, pa ukoliko su polja prazna ili unete vrednosti nisu odgovarajuće, korisniku će se ispisati greška i primer toga, kako može da napiše odgovarajuće vrednosti.
- Kod radio buttona se sa *"Change"* eventom proverava da li je izabrao jedan iz grupe, ako promeni odabir, takodje se proverava i klikom na dugme, da li je izabrao jedan iz grupe radio buttona.
- Kod check boxova se sa event *"Change"*, proverava da li je korisnik čekirao najmanje jedan check box, takodje se proverava i klikom na dugme, da li je čekirao bar jedan.
- Kod dropdown liste sa event *"Change"*, proverava da li je korisnik izabrao ponovo ili ostavio prvu opciju koja je *"Choose"* i ukoliko jeste prikazaće se odgovarajuća poruka koja kaže da mora izabrati jednu opciju.

- Klikom na dugme “Send”, proveravaju se polja za unos (da li su prazna i da li imaju odgovarajuće vrednosti), radio buttoni (da li je izabran jedan), check boxovi (da li je izabran bar jedan) i dropdown lista (da li je izabrana bilo koja druga opcija, osim prve). Ukoliko ovo nije zadovoljeno, korisniku će se prikazati crvenim slovima i borderom, gde je napravio grešku i primer kako to može ispraviti, a ukoliko je sve u redu, korisniku se prikazuje poruka za uspešno slanje odgovarajućih podataka, ispod cele forme u vidu zelenih slova i zelenog bordera i forma se resetuje.

#### Stranica about-us.html

- Na dugme “Read more”, prikazuje se ostali deo teksta u vezi istorije i trenutnog stanja avio-kompanije, metodom *slideDown()* i kada se otvori preostali deo teksta, sadržaj dugmeta se menja u “Show less”. Kada se ponovo klikne na dugme, sadržaj se vraća u prvobitno stanje, metodom *slideUp()* i sadržaj dugmeta se vraća prvobitno stanje. (korišćenje jQuery biblioteke)

#### Stranica author.html

- Dinamičko ispisivanje podataka o autoru web sajta.

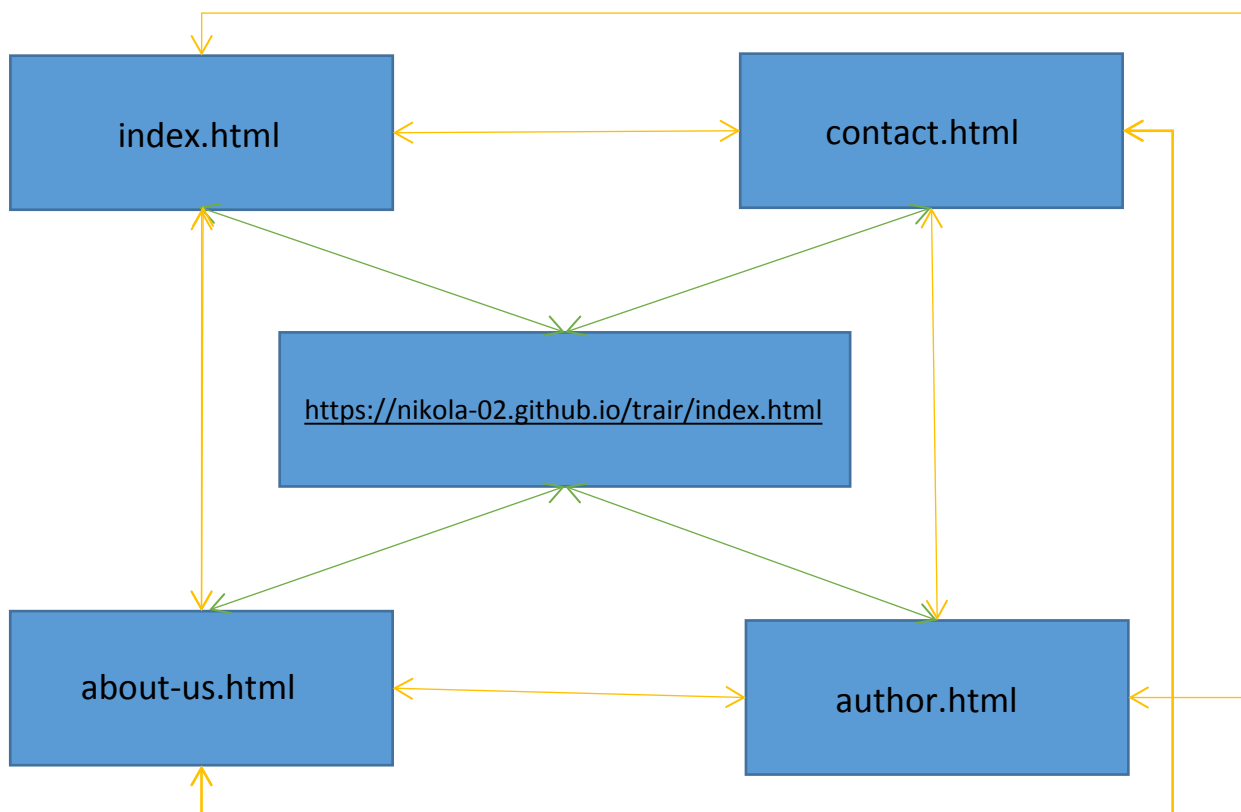

Svaka stranica sadrži dinamički ispisan heder, futer i dodavanje klasi na kliknuti link u hederu.

### 1.3 Template

Za izradu sajta nije korišćen nijedan već gotov template.

## 2. Organizacija

### 2.1 Organizaciona šema

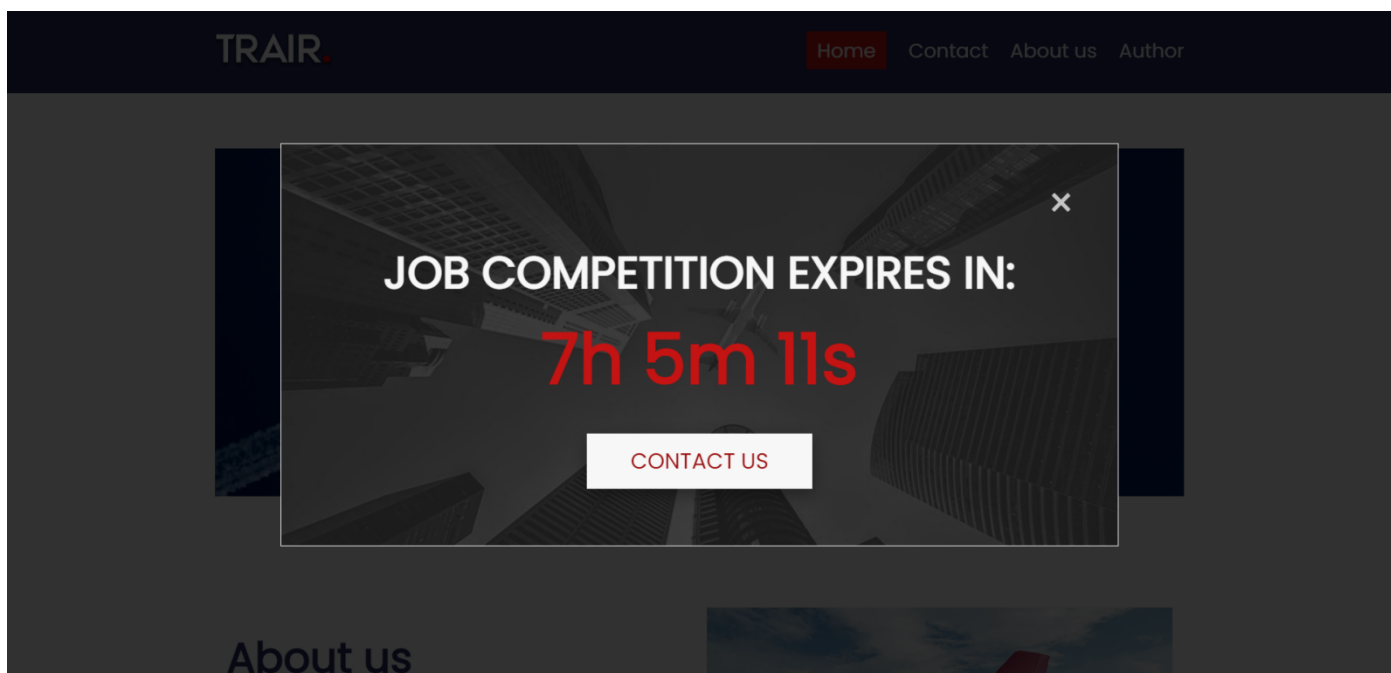

### 2.2 Mapa sajta

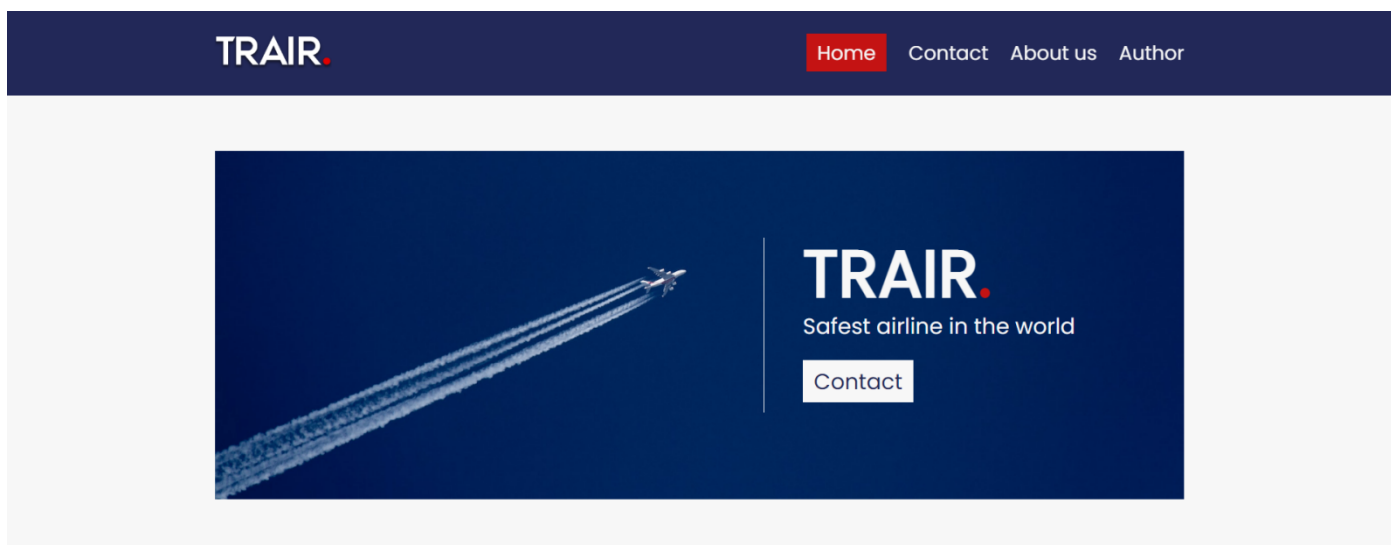

```

## 2.3 Slike stranica i opis funkcionalnosti

index.html

Kada se udje na sajt, nakon 5.2 sekunde se pojavljuje modal, koji iza sebe ima zatamnjenu pozadinu. Modal ima tajmera, koji odbrojava broj sati, minuta i sekundi do određenog datuma. Modal je moguće zatvoriti na 2 načina: klikom na **X** u gornjem desnom uglu ili klikom bilo gde van modala (bilo gde na zatamnjeni deo stranice). Modal je fiksni i prati skrolovanje kroz celu stranicu.

Klikom na neki od navigacionih linkova, njegova pozadina se menja u crvenu dinamički.

## About us

We are safest, fastest and cheapest  
Airline in the world.  
Our agency will take care for all of our  
passengers.

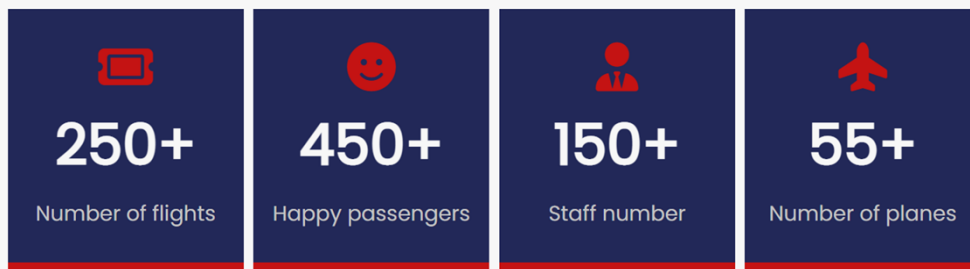

Read more about us and our history here.

About us

Prelaskom miša preko slike, slika će se promeniti (metodom) FadeIn efektom. Kada se mišem izađe van slike, vratiće se u prvobitnu efektom (metodom) FadeOut. (jQuery biblioteka korišćena)

## Statistics of our company

Deo sajta za statistiku avio-kompaniju, koja u sebi sadrži tajmer setInterval. Odbrojava do određenog broja i onda staje, za nekoliko sekundi (zavisi od broja do kog se broji).

## Recommended flights

Filter by destination:

All

Destination: **Doha**  
Date of travel: **2022/12/12**  
Flight duration: **8h 45min**

Destination: **London**  
Date of travel: **2022/12/15**  
Flight duration: **4h**

Destination: **Istanbul**  
Date of travel: **2022/12/28**  
Flight duration: **6h 15min**

Destination: **Madrid**  
Date of travel: **2023/01/15**  
Flight duration: **5h**

Destination: **Paris**  
Date of travel: **2023/07/14**  
Flight duration: **6h**

Destination: **Catalonia**  
Date of travel: **2022/12/18**  
Flight duration: **5h 30min**

Destination: **Lyon**  
Date of travel: **2022/12/17**  
Flight duration: **6h 20min**

Destination: **Liverpool**  
Date of travel: **2022/12/20**  
Flight duration: **3h 45min**

Destination: **Seville**  
Date of travel: **2022/12/27**  
Flight duration: **4h 40min**

Deo sajta koji inicijalno prikazuje sve letove, sa njihovim destinacijama. U dropdown listi, *Filter by destination*, može se izabrati neka država i tako će se prikazati svi destinacioni gradovi iz te države. Ako se ponovo izabere opcija *All*, prikazaće se svih 9 preporučenih letova.

## Passengers reviews

66

What caught my attention the most on the plane was a room used for make-up. I spent a few hours there. They have too many things to do on the plane, so you will never be bored. The food is excellent, and the flight attendants are very kind and polite.

ELENA WARSIK, MENAGER LOPE

Deo sajta, gde se prikazuju recenzije korisnika. Klikom na ikonicu ispod, prikazuje se recenzija korisnika, na koga je kliknuto. Inicijalno se pokazuje recenzija drugog korisnika, sa klasom *active*. Kada se klikne na ikonicu nekoga korisnika, njegova ikonica dobija crveni okvir i prebacuje se sadržaj iznad, koji je vezan za tog korisnika.

### About the company

Trair airline is fastest, cheapest and safest airline company in the world. We are known for quality and luxury everywhere in world.

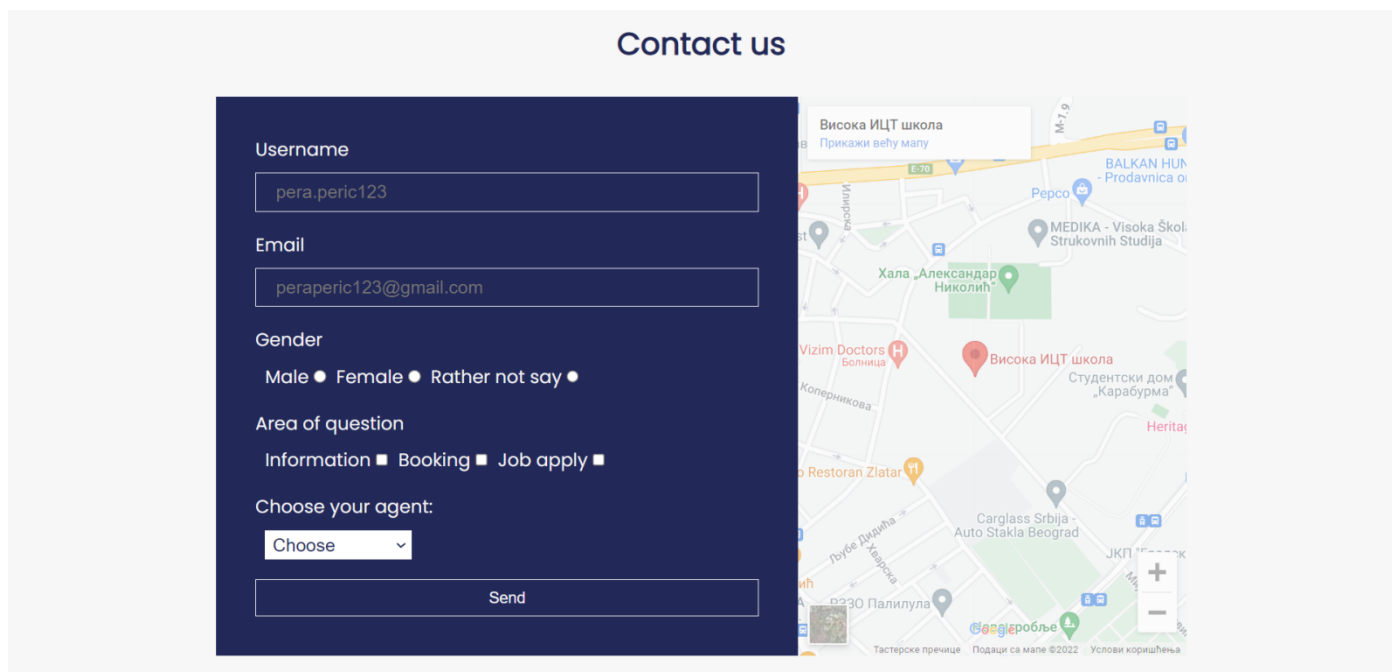

Footer celog sajta ima dinamički ispisan navigacioni meni, koji se nalazi sa leve strane, u sredini dinamički ispisan linkove, koji služe za kontakt, gde se takodje nalazi i link do ove dokumentacije. Sa desne strane se nalaze linkovi do društvenih mreža kompanije, koji su takodje dinamički ispisani.

U donjem desnu stranice se, posle skrolovanih 400px od gornje ivice, pojavljuje dugme za vraćanje na početak stranice. Pojavljuje se sa efektom (metodom) FadeIn, za 0.5 sekundi.

Ako vratimo ponovo nazad u ovih 400px, skrolovanjem, dugme nestaje efektom (metodom) FadeOut, za 0.5 sekundi. Kada se na ovo dugme klikne, ono vraća prikaz na početak stranice, za vremenski period od 1 sekunde. (jQuery biblioteka korišćena)

## contact.html

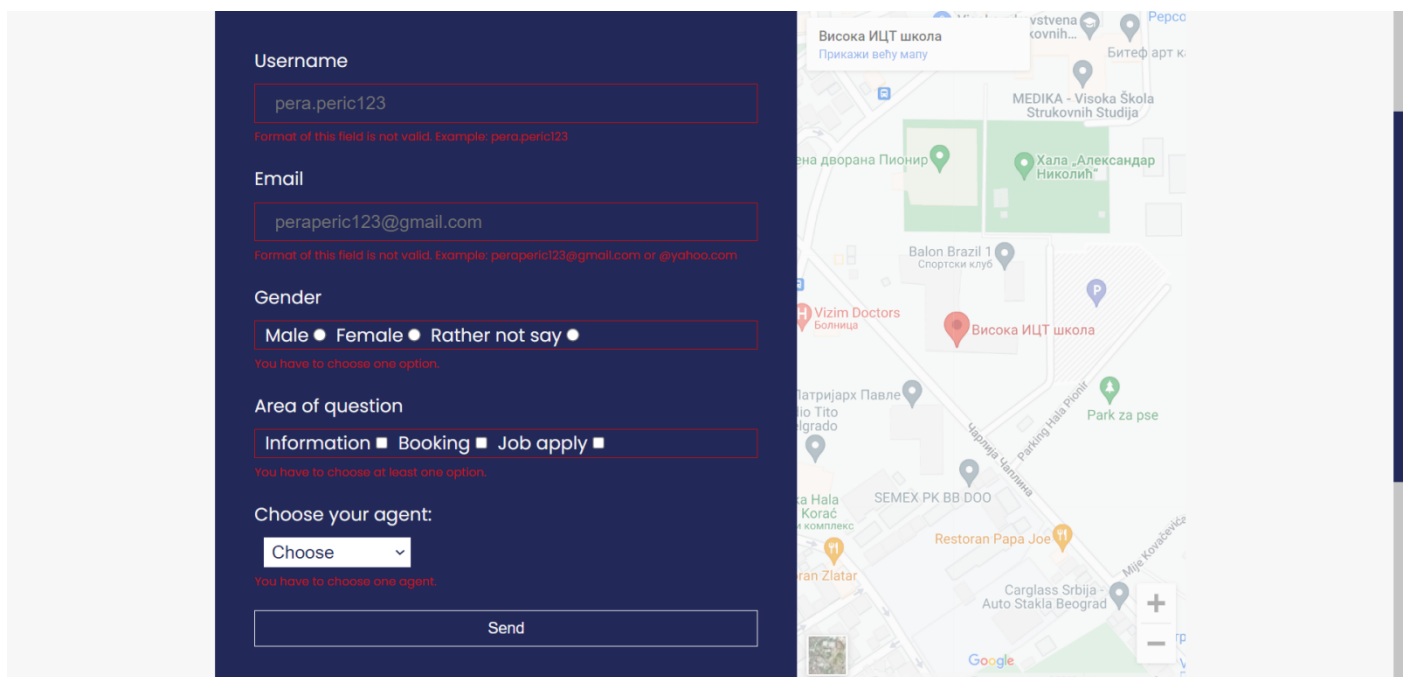

Na ovoj stranici, se kao i na svakoj, nalazi isti heder i futer. Ova stranica ima formu sa 2 tekstualna polja (username, email), koja imaju proveru sa eventovima keyup i blur i čija se odgovarajuća vrednost (da li nije uneto ništa ili da li je pogrešna vrednost) proverava sa regularnim izrazima i funkcijama unutar tih eventova (proverava se ukoliko se pusti taster sa tastature ili ukoliko se izadje iz fokusa polja). Dalje, ima deo sa radio buttonima, gde se proverava da li je izabrana jedna opcija u grupi. Sledeće, deo sa check boxovima, gde se proverava da li je izabrana najmanje jedna opcija. I radio buttoni i check boxovi imaju event Change, da se provere izabrane opcije ako se promeni izbor. Još jedan element forme koji se nalazi na ovoj formi je dropdown lista. Ona ima event change, sa kojim se proverava da li je izabrana bar jedna opcija koja nije prva ("Choose"). Svakom proverom se korisniku ispisuje greška ukoliko nije uneo ispravne vrednosti polja (kao i primer kako može ispraviti unetu vrednost, da bude odgovarajuća) ili ako nije izabrao odgovarajuću opciju. Na slici ispod možemo videti kako to izgleda. Klikom na dugme Send, proveravaju se sva polja funkcijama i regularnim izrazima i ukoliko neko polje nema odgovarajuću vrednost, takodje

se ispisuje poruka o grešci. Ukoliko su sva polja ispravno uneta kada se klikne na dugme Send, ispod se ispisuje poruka da su podaci uspesno zabelezeni i da ce korisnik biti kontaktiran i forma se resetuje na početno stanje i spremna je za ponovni unos.

Username je formata: ime.prezime123 (mora sadržati npr. Ime, pa tačka, pa prezime, pa mogu biti brojevi ili )

Email je formata: imeprezime123@gmail.com ili @yahoo.com (mora sadržati npr. ime i prezime, i može brojeve i iza njih može -\$\*\_ , pa znak @ i onda ili google.com ili yahoo.com)

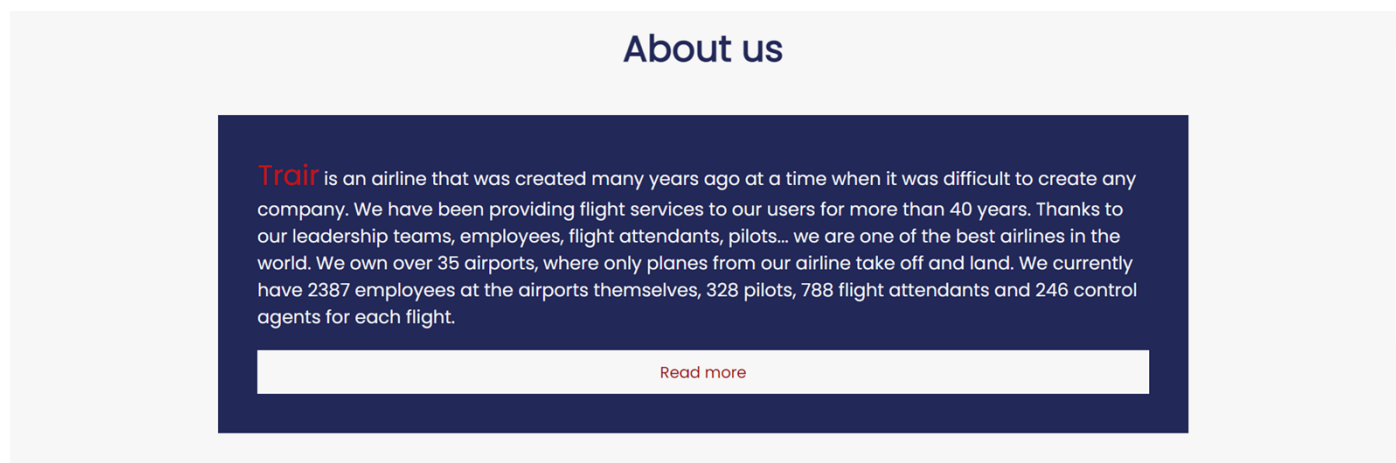

The image shows a web form on the left and a map on the right. The form has a dark blue background and contains the following fields:

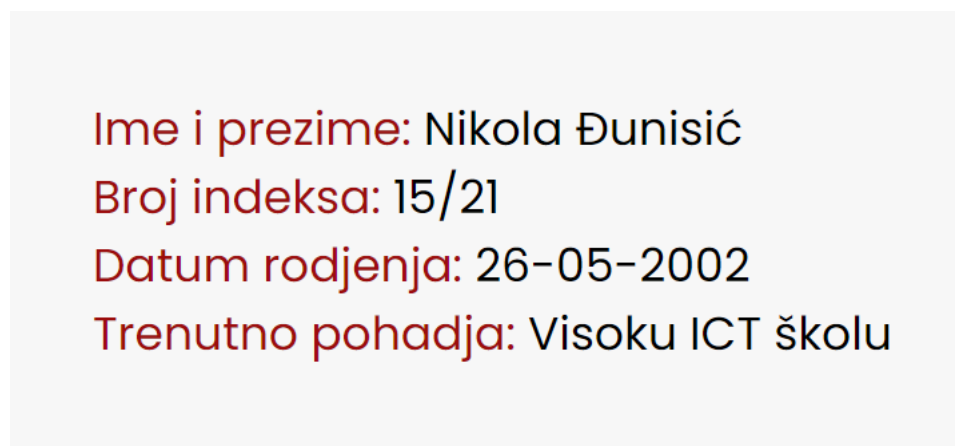

- Username:** A text input field containing "pera.peric123". Below it, a red error message reads: "Format of this field is not valid. Example: pera.peric123".
- Email:** A text input field containing "peraperic123@gmail.com". Below it, a red error message reads: "Format of this field is not valid. Example: peraperic123@gmail.com or @yahoo.com".
- Gender:** A radio button group with three options: "Male", "Female", and "Rather not say". Below it, a red error message reads: "You have to choose one option."
- Area of question:** A radio button group with three options: "Information", "Booking", and "Job apply". Below it, a red error message reads: "You have to choose at least one option."
- Choose your agent:** A dropdown menu with the text "Choose" and a downward arrow. Below it, a red error message reads: "You have to choose one agent."

At the bottom of the form is a "Send" button. The map on the right shows a street view of a city area with various landmarks and buildings. The map is in Russian and includes labels such as "Висока ИЦТ школа", "Медицинская школа", "Хала „Александар Николић", "Битеф арт к", "Balon Brazil 1", "Vizim Doctors", "Патријарх Павле", "СЕМЕХ ПК ББ ДОО", "Restoran Papa Joe", "Carglass Srbija - Auto Stakla Beograd", and "Mije Kovačević".

Poruke o grešci se ispisuju crvenom bojom, ispod svakog polja koje nije u odgovarajućem formatu. Takodje za svaki blok se dodaje klasa, koja boji border u crveno, tu gde vrednosti nisu odgovarajuće.

Na ovoj stranici se nalazi tekst koji govori o istoriji i trenutnom stanju avio-kompanije. Klikom na read more, otvara se preostali sadržaj efektom (metodom) SlideDown, takodje kada se otvori preostali tekst, sadržaj dugmeta se menja u Show less. Kada se klikne opet na dugme, zatvara se otvoreni tekst efektom (metodom) SlideUp, sadržaj dugmeta se vraća u Read more. (jQuery biblioteka korišćena)

Dinamičko ispisivanje podataka o autoru.

            <p id="about-us-description-text">
```

```

        <span>Trair</span> is an airline that was created many years ago at a time
when it was difficult to create any company.
        We have been providing flight services to our users for more than 40 years.
Thanks to our leadership teams, employees,
        flight attendants, pilots... we are one of the best airlines in the world.
We own over 35 airports,
        where only planes from our airline take off and land. We currently have 2387
employees
        at the airports themselves, 328 pilots, 788 flight attendants and 246
control agents for each flight.
        <p id="added-about-us">
            Each of our pilots has over 10 years of flying experience and is trained
and has completed the most renowned courses out there. The flight attendants are very
friendly and want to help you in any way possible, they will do everything to make you
comfortable on the flight. We have one of the best business classes out there. In business
class, there are separate rooms with 4 beds, 3 TVs, 2 bathrooms, 3 laptops
            and incredibly fast internet. There are also massage rooms, as well as a
sauna, in case of longer flights,
            so that you can relax. Some of the aircraft we own are Boeing 747, Boeing
737, Airbus A350 XWB, Comac C919, Irkut MC-21...
            and many others. Each of our aircraft is equipped with small tablets in
each seat,
            so you can relax and watch a movie during the flight. We also have a
kitchen,
            where dishes are made according to the passengers' choice.
            We have an unlimited number of drinks, which the flight attendant brings
to you together with the ordered food.
        </p>
